

## County Flood Control System Ready for Rains

October 1, regarded as the opening of the annual winter rainy season, will find the Los Angeles county flood control district fully prepared to cope with floods and with an important addition to the control system in Hansen retarding basin in upper San Fernando valley.

Operation of this structure will be watched closely by all persons interested in flood control work, as this is the first of five projected for Los Angeles county, the second of which now is well under way on the upper Los Angeles river just south of Van Nuys. Six-foot-square gates that are locked open permit the water impounded behind the reservoir to be released at a rate that makes damage impossible in the channel below.

Rains are expected to begin early this year, if the flights of wild geese from the north are any barometer. Thus far, however, there have been no "old timers" in the prognosticators' ranks to make any rash predictions, engineers said.

The district's 13 other principal reservoirs are dry, with the exception of Puddingstone, Santa Anita, Pacoima and Big Tujunga. Short-wave radio now links the larger dams with the main office in Los Angeles, supplementing the district's telephone lines.

## Technocrats 'Boning Up' for Chief's Arrival

W. H. Weir, well-known Technocrat and educational governor of Torrance section, announced today that members of the local unit are now repeating Technocracy's scientific study course. This review is in preparation for the arrival of Technocracy's director-in-chief, Howard Scott, who is scheduled to speak at a mass meeting at the Hollywood Bowl, Sunday, Oct. 6.

Discussing plans for material to be included in the study course, Weir declared that due to late developments in world conflict, special interest has been shown in Technocracy's proposed plan for continental defense, and that for Technocracy's blueprint for continental operation will be stressed in the ensuing lessons. Regular classes will be held Friday evenings at 8 p. m. in section's headquarters, 1915 Carson street. The public is welcome.

## Voice Classes at Evening School Are Under Noted Singer

The Torrance adult evening school is offering a special course in voice development and choral music under direction of Nell Gotthold, prominent concert and opera singer of Los Angeles. Miss Gotthold was instructor for voice at Chapman College for five years and director of music in Wilshire Methodist church in Los Angeles for six years. She has sung with symphony orchestras throughout the United States.

The course offered at Torrance will include voice culture, sight-singing, music appreciation, opera, radio and concert singing. Classes meet on Wednesday evenings.

The oldest agricultural college in the United States is Michigan State, established in 1853.

#### Dr. Katherine F. Siekmann, D.C., Ph.D.

Graduate of Carver University, Darling & Baker, and Post-Graduate of Palmer College and Western University.

25 YEARS' EXPERIENCE

Each week I have written an article in Chiropractic and I hope that at some time I have discussed your particular problem. However, in concluding my series I wish to warn you that 67% of all children have curvature of the spine and bad posture. Eight girls to one boy have this curvature and if not corrected will produce gitter, gall stones, appendicitis, fallen stomach and many displacements of the internal organs often requiring an operation later in life. The Chiropractor alone can make these corrections. Chiropractic for correction is used in the leading hospitals and many other places. I recommend Chiropractic for their patients.

IT IS THE LEADING CURATIVE SCIENCE WHY NOT CONSULT DR. SIEKMANN

Free examination for children 1 to 14 years until Oct. 1st

Hours: 10-12 & 2-5 Daily
